PROFESSIONAL SUMMARY

Dynamic and self-motivated Mechanical Engineer with a proven track record in project management, design, and execution. Over 7 years of experience handling critical projects, specializing in thermal and structural design of cooling towers, and providing exceptional client services. Recognized for completing over 50 projects under challenging conditions.

OBJECTIVE

Seeking a challenging position in a reputable organization to apply my skills in project management, design, and execution for mutual growth and success.

WORK EXPERIENCE

Manager-Design & Detail Engineering

M/s Enexio Power Cooling Solution

March, 2026 – Present

- Lead detailed engineering and design activities for field erected and package type cooling towers.
- Prepare and review engineering drawings, layouts, and fabrication details ensuring compliance with project specifications.
- Provide technical support to the proposal and sales team for preparing competitive technical submissions.
- Coordinate with clients, project teams, and vendors for technical clarifications and design finalization.
- Optimize design parameters to improve performance, cost efficiency, and ease of fabrication.
- Ensure adherence to engineering standards, project timelines, and quality requirements.

Project Manager-Design:

M/s Msquare Engineers & Msquare Nexus Pvt. Ltd

July, 2023 – March 2026

- Successfully managed and executed projects across various sectors including manufacturing, petrochemical, and infrastructure, enhancing adaptability and domain knowledge.
- Played a key role in pre-sales technical support and proposal development, contributing to increased project acquisition and client retention.
- Acted as a bridge between clients and internal teams to align project deliverables with customer expectations, ensuring high satisfaction.
- Guided junior engineers and draftsmen in project workflows, quality standards, and documentation practices, fostering a collaborative and efficient work environment.

- Identified bottlenecks in project planning and execution, and suggested design or workflow optimizations to improve overall project timelines and quality.
- Simultaneously managed technical design, marketing communications, and client servicing.

Executive & Senior Designer

M/s Melfrank Engineers & Melfrank Engineering Industries LLP

January 2019 – June 2023

- Successfully completed projects for major clients, including Reliance Industries, AMNS, GNFC, and more.
- Created precise AutoCAD 2D layouts for structural and thermal components of cooling towers, optimizing design clarity and fabrication accuracy.
- Designed and executed over 50 projects efficiently and safely.

EDUCATION

- B. Tech in Mechanical Engineering – 9.2 CGPA
- Secondary School Certificate – 71.2%

SKILLS

- Project Management
- Time & Risk Management
- AutoCAD 2D Design
- Analytical Thinking
- Leadership
- Adaptive & Self-Motivated

ACHIEVEMENTS

- Awarded Best Employee by M/s Melfrank.
- Awarded Dynamic Employee by M/s MSquare Engineers.

LANGUAGES

- Hindi: Native
- English: Conversational

HOBBIES

- Cricket
- Learning New Things

Thanks & Regards

Mo Jeeshan
